INTRODUCTION

Motivated third-year undergraduate with strong fundamentals in DBMS, Computer Networks, and Operating Systems, and practical experience in web development using modern technologies. Seeking opportunities to apply my technical knowledge to real-world software development projects.

EDUCATION

- **Pune Institute of Computer Technology** 2023 - 2027
BE in Electronics and Telecommunication Engineering
 - CGPA: 7.7
- **Shri Sant Gajanan Maharaj Junior College** 2021-2023
Higher Secondary Education
 - Grade: 65.5%
- **Shri Sant Gajanan Maharaj English School** 2021
Secondary Education
 - Grade: 96.6%

PROJECTS

- **Automatic Duty Allocation System**
Techstack: Node js, MySQL, Express js, Typescript js, Tailwind CSS
 - Developed an Automatic Duty Allocation System to automate the assignment of invigilation duties.
 - Implemented rule-based scheduling logic to reduce manual effort and allocation errors.
 - Designed and managed a database for storing faculty details, availability, and scheduling constraints.
 - Automated the allocation process, improving scheduling efficiency and reducing processing time.
- **FeelBuddy- The Emotional Support ChatBot**
Techstack: HTML, CSS, React.js, MySQL , Generative AI
 - Developed an emotional support chatbot that detects users' moods and provides personalized 24/7 emotional support.
 - Integrated soothing music, mini-games, and counselor video recommendations with relatable stories to help users cope with emotional challenges.
 - Provided voice-enabled conversations that help users overcome negative emotions while creating a supportive and engaging experience.

SKILLS

- **Languages:** C++ , Java , Python
- **Frameworks:** Node.js, React.js, Express.js, Tailwind CSS
- **Databases:** MySQL, MongoDB
- **Coursework:** Data Structures and Algorithms , Object Oriented Programming , Database Management Systems , Operating Systems , Computer Networks
- **Tools:** Visual Studio Code , MySQL Workbench , GitHub , Postman

LEADERSHIP EXPERIENCE

- **Operations Head** 2025-2026
PICT E-CELL
 - Led end-to-end operations for entrepreneurship and innovation events, ensuring smooth execution.
 - Coordinated with cross-functional teams (marketing, technical, finance) to deliver events with high participation.
 - Managed logistics, scheduling, and on-ground execution for workshops, competitions, and speaker sessions.
 - Streamlined operational workflows, improving efficiency and reducing execution delays.
 - Served as the primary point of contact between faculty coordinators, sponsors, and student teams.
